Staffers rate the following love gloves on a scale of 1 (old tire) to 10 (what condom?) to help you and your man find the perfect fit.

The newest condom on the market has bagginess built in for lots more feel-good friction.	This love sack is wider than other Japanese condoms—leaving extra room for more man.	A wider head and shaft give big guys a wild get-it-on ride.	Classically shaped with more ribs than a Kansas City barbecue.	This on-the-small-side Japanese-made pleasure pouch is super-duper thin.	The hip-hop homeboy condom—super-slack with a flared head.	Rows of raised bumps and ridges are topped by a baggy head.	Well-made, pricey, and totally tasteless (the only polyurethane condom out there).
Fit "Rolled on easily and fit like a second (fore-) skin."	"The perfect sheath for my sword—no strain, no pain."	"Felt looser and thicker than the other condoms."	"The classic fit—not too loose or too tight for my man meat."	"Snug but nice—my love veins weren't bulging under the latex."	"Hard to get jiggy in this baggy."	"Great fit. It's definitely roomy but it still held tight."	"Long and loose—ready for some serious action."
