The World's 10 Best Condoms

The First Ever Condom Awards!

Great Actor's Get An Oscar. Great Musician's Get The Grammy. Now The World's Best Condoms Have An Award! Introducing the First Ever Condom Awards! Owner Kimberly, Husband John and 20 lucky SpicyGear Customers put *all* of our condoms to the test (over 60 in all) and after many months of testing (*And What Seemed Like A Lifetime of Compiling*) , [Kimberly and John](#) proudly present the World's 10 best condoms for Both Partner's Pleasure! We proudly present you with the World's 10 best condoms of 2003. [About The Customer Grading System >](#)

Inspiral Hands Down Our Favorite - Sex Toy and Condom In One!

Don't let this gem's strange looks fool you, the Inspiral's odd design makes for an incredible condom wearing experience for him and her. With its Nautilus shell shape, the top of this condom was designed to create a freely moving bag, that during sex, will hit some of her most sensitive areas. Men have reported (and we totally agree) that this same pouch gives your penis much freedom and no feelings of suffocation. A drop of Waterbased Lube inside this condom will greatly add to his pleasure. She will thank you for it and he will be amazed that wearing a condom could feel so damn good... [< More Info >](#)

Durex Intense Sensation #2 Tied

Studded Construction, Durex Quality, Slightly Larger Fit. With hundreds of raised bumps, the Durex Intense Sensation takes 2nd place easily. This condom is a great choice for those that truly enjoy satisfying their partner. The studs are not overly exaggerated, (contortionists try the Contempo Rough Rider) and the silky lube Durex uses on these condoms is Perfect. [< More Info >](#)

Beyond Seven Studded #2 Tied

Studded for her; Thin for his pleasure. Snug Fit Design.

Hand it to the Japanese! These condoms feature hundreds of tiny raised bumps along the shaft design to rock her world. VERY SIMILAR TO THE INTENSE SENSATION, EXCEPT THIS IS A SNUG FIT CONDOM. Made from an advanced Latex called Sherlon, they are much thinner than standard latex condoms without sacrificing strength. The thinner latex also helps her feel the heat and friction that is mostly lost from thicker latex condoms. [< More Info >](#)

Pleasure Plus #3 *It's Ribbed Pouch is Quite Remarkable!*

With so many media reviews of the Pleasure Plus, we have to admit we were quite skeptical when using it. Men's Health, Cosmo, Glamour.. All call this the best condom made... Hype? Not really.

The Pleasure Plus was designed for one reason. Excitement. Typically condoms are a drag to wear. By making a condom more exciting to wear and feature packed, more people will use them. As for the Pleasure Plus, they hit home on both accounts. The ribbed pouch at the Pleasure Plus's head is ideal for getting her off. Sex Positions like the reverse cowgirl and doggie style are absolutely perfect for this condom as it allows for the condom's specially designed ribbed pouch to hit her most sensitive spots, and massage her clit. Men like it because the pouch gives a little extra headroom for a looser fit. The condom's only draw pack is that with the lights off, it is a little hard to figure out which way its pouch is pointed. . [< More Info >](#)

Durex Avanti #4 *Polyurethane condoms make a difference in sensation for him and her.*

Durex's best condom innovation before the Performax, was this super thin condom made from non-latex polyurethane. This condom has many advantages over traditional latex made condoms.. It's Thinner, It Transfers Body Heat, It contains no Spermicide, and it's ideal for latex sensitive users.

We both love this condoms because..

- A.) It is the thinnest condom made, so it feels like you are not wearing a condom at all.
- B.) Polyurethane transfers heat, so you can feel how hot your lover is.

Men and woman that are allergic or sensitive to Latex must try this condom for sure. [< Order Avanti Here >](#)

Avanti Thickness: 0.0011"
Average Condom Thickness: 0.003"

Crown #5 *Skinless Skin, For Super Sensitivity*

The company that manufactures Crown Condoms (Okamoto) has taken the liberty of labeling these as Skinless Skin.. And as the many Loyal Crown users will testify there are not fooling around. Being that Crown Condoms are one of the thinnest condoms produced, the Crown Condom makes #5 on our list. I love it because its super thin construction makes this condom feel almost invisible. John Loves it because it fits very comfortably and again, its super thin design gives it that bareback feeling. Crown condoms do not have some of the other design features of some newer condoms.. But its quality design, super thin feel, and dependable construction make it quite a great condom.

Durex Maximum #6

Durex's New Large Condom

Easy On, Larger Fit, and they do not Smell at all.

Durex recently stopped production of the Ultra Comfort Condom and replaced it with the new Durex Maximum. Maybe I should call this an upgrade.. A Big Upgrade. At over 8" long and 2.5" wide, it is one of the largest Latex condoms made. Not only that, but it is super thin, super strong, has a unique contoured shape, and it has plenty of head-room at its top. The special contoured shape makes it easy to put on.

Durex Performax #7 *The Fastest Selling Condom Ever!*

Controls premature ejaculation, with genital desensitizing lube. Take the famous Durex Maintain and add it *inside* a condom.. Great Idea.

The best part about these condoms is that only the person wearing the condom will be desensitized. In other words your partner will not feel the desensitizing lubricant. Your lover will not lose sensation, because the desensitizing lube is located only on the inside of the Performax.

Kimono MicroThin #8 *For the ultimate bareback feeling*

Looking for the Thinnest Latex Condom? Look no further. Kimono Micro Thin condoms are hands down the thinnest latex condoms made. We both like this condom for its super thin design and Men find its form fitted shape a great fit.

Lack of lubrication is the #1 reason for condom failure, and when using such a thin condom proper lubrication is essential. < [More Info](#) >

Trojan Her Pleasure #10 *Trojan's Best Condom Yet!*

What a greatly designed condom. Though it is called "Her Pleasure" (Obviously A Marketing Ploy), both partners will enjoy this condom's unique features. Shaped like a light bulb, the increased head size will greatly increase his willingness to wear a condom by not suffocating him. And for her, its unique shape is enhanced with rows of nicely sized ribs on its shaft. A great condom by all means, it is the first to incorporate both ribs, thinness, and a larger head.
